FOR A PROUD, PROSPEROUS INDIA

AN AGENDA

NATIONAL DEMOCRATIC ALLIANCE

ELECTION MANIFESTO
LOK SABHA ELECTION, 1999
Introduction

The 1999 General Election is an unnecessary imposition. It was thrust upon the country by a motley combination that put political negativism, narrow personal interests and greed for power far above the national good. The Government led by Shri Atal Bihari Vajpayee lost the vote in the Lok Sabha on April 17 by just one and that too questionable vote. In spite of promising a new government ‘in five minutes’ and futilely attempting widespread defections, this negative coalition by the Congress failed to come up with any alternative arrangement, forcing the dissolution of the Lok Sabha and fresh elections. A serving, performing Government was needlessly destabilised.

Hardly had the country absorbed the shock of this avoidable uncertainty, then we were faced by Pakistani armed intrusion Kargil.

The Government rose to the challenge and acted decisively. Faced by this aggression in Kargil, the response of the Government was swift, though measured.

The last of the Pakistani intruders were cleared from the Kargil Sector on 27th July.

We salute the heroism, dedication and selflessness of our armed forces. We dedicate ourselves anew to preserving the honour and territorial integrity of our motherland. We reiterate our commitment to look after the welfare of the armed forces, and of the dependents of all those that laid down their lives in service of our motherland.

The security of the nation is our paramount duty. In fulfillment of this sacred duty we will ensure that the neglect of defence preparedness by the previous governments during the last decade shall be corrected. The defence of India and the needs of our armed forces is our commitment.
This General Election allows the country a great opportunity of finally putting an end to the era of political negativism, uncertainty and dynasticism. In this hour of national challenge, when the faith of the people in democratic institutions is under test it is vital that all nationalist forces join hands. This is the moment to look ahead, to a new, resurgent India.

In Prime Minister Atal Bihari Vajpayee, the country has a leader who blends tradition with modernity, a leader who understands India and the world and a statesman who is accepted by all sections of the country. In just 13 months, the Vajpayee Government set new parameters of purposeful governance. In the realms of national security, regional cooperation, economic modernization and centre-state relations, the Vajpayee Government has shown the way forward. Under Shri Vajpayee’s leadership the National Democratic Alliance seeks a firm and resounding mandate to complete the unfinished agenda.

The National Agenda for Governance of the National Democratic Alliance constitutes the basis of our joint commitment for a stable Government to take India into the new millennium. On this occasion we appeal for a new political age of reconciliation and accord based on our principled commitment to:

- National Security – ensuring full combat effectiveness of our armed forces;
- National Reconstruction – an end to divisiveness and a moratorium on contentious issues;
- Dynamic diplomacy – In service of motherland to obtain for India it’s rightful place in the comity of nations;
- Federal harmony ensuring a partnership of the Centre and States;
- Economic Modernization – harnessing technology for rapid, equitable growth;
- Secularism – the emotional harmony of all Indians and full protection of minorities;
- Social justice – empowerment of all weaker sections and gender rights;
- Probity – transparency of decision-making and corruption-free governance;

When the whole nation was thrown into the vortex of political
instability because of the toppling of the Government headed by Shri Atal Bihari Vajpayee, by the irresponsible combination of Congress, the left parties and their old and new found allies; when the whole nation felt that it was duped and deceived by their chicanery because they could not fulfill their boast of an alternative Government in ‘five minutes’ – even for several days; and when the whole nation was on the verge of loosing faith in our democratic system was getting cynical about politics and politicians; the signatory political parties came together as an act of national commitment and founded the National Democratic Alliance (NDA), under the leadership of Shri Atal Bihari Vajpayee, to set the Indian polity on a new course for the future.

The reason for creating the NDA is to lift the spirit of the nation at large, to draw its people together and, most importantly, to rebuild the bonds of common purpose that are the very roots of our democratic polity.

The NDA came into being because of an historic need and realisation amongst us that our young democracy cannot bear the fits and tremors of frequent elections which will undermine the peoples’ faith in the democratic process. Therefore, with a consensus on a common cause and a common set of principles we have sunk our differences to weld ourselves into a solid phalanx of a single dominant political formation and thereby we fulfill the resolve of the Indian people to give themselves a stable, strong and progressive Government.

We are proud that the NDA is representative of both national interests and regional aspirations – after all the NDA is nothing but the mirror-image of our nation’s unity in multifaceted diversity, rich pluralism and federalism.
Our Mission

The NDA’s mission in politics is to build a bond of trust between Government and people. This is the only way a democracy can flourish; but unfortunately has been ignored during the last 50 years of one-party rule.

Therefore, the NDA pledges to the people of India a Government which shares their hopes and anxieties and which will work as partner with all people irrespective of class, caste and religion – not just with a privileged few. This is our contract with the people.

The NDA is new; the NDA is the future and the NDA is a broad-based movement for progress and justice.

Our vision is one of national renewal with modern programmes of change for a resurgent India.

We reach out to the minorities and even at the cost of repetition proclaim that we will safeguard the rights as enshrined in our Constitution. NDA is the political arm of none other than the Indian people as a whole. No one will be cast aside; fairness and justice will be rendered to one and all and we assure you that there will not be any discrimination.

We appeal to our brothers and sisters of the minorities that we whole-heartedly extend our hands of friendship, in these fraternal words:

Let us hold hands and walk together to build a resurgent, modern India.

Let us throw away our old prejudices.
Let us put an end to divisiveness.
Let us have a moratorium on contentious issues.
Let us bind ourselves with bonds of trust and friendship.
We want an India which we all feel part of, in whose future we all have a stake. And we want to enter the new millennium with confidence; not with divisive feelings.

This is our call for reconciliation and it is part of our commitment to the minorities.
Agenda For Governance

A Commitment to Good Governance

1. Our first commitment to the people is to give a stable, honest, transparent, and efficient government capable of accomplishing all-round development. For this, the government shall introduce time-bound programmes of needed administrative reforms including those for the Police and other Civil Services.

Economy

2. We will continue with the reform process, give it a strong Swadeshi thrust to ensure that the national economy grows on the principle that ‘India shall be built by Indians reappraise and revitalise reforms through giving primacy to removal of unemployment, and to an accelerated development of infrastructure, particularly energy and power production. We will bring GDP growth to the 7-8% bracket, and control deficits – fiscal and revenue. We will examine the possibility of enacting a Fiscal Responsibility Act. We will take all such steps as would expedite implementation of policies and programmes in accordance with our national interests; and give to the entire national development efforts a humane face with total eradication of poverty as the ultimate goal. For this ‘Berozgari Hatao’ – eradicate unemployment – is our call. Swadeshi is not reinventing the wheel. It means that we will facilitate the domestic industry to gain enough muscles to compete with the multinationals in the local and global markets. We want domestic companies to flourish
and acquire a Trans National status. At the same time the
country cannot do without FDI because besides capital stock
it brings with it technology, new market practices and most
importantly employment. Our target is to achieve at least
$10 billion per year which will commensurate with our
growth objectives. The old leftist approach sought complete
state control of industry while the rightist approach
wanted to leave everything to the market. We reject both.
Government and industry must work together to achieve
key objectives aimed at enhancing the dynamism of the
market with effective and efficient regulatory mechanisms.
In fact the issue is not about capitalism or socialism, nor
is it about market or less state. It is about better society,
about improving the way citizens can demand and obtain
all sorts of public goods. It is about dignity for all. We
firmly resolve that poverty should be relegated to history
like slavery, colonialism, small pox and cholera and we
should meet the challenge of mobilising resources for that
by undertaking the challenge of restructuring priorities
and mainstreaming these priorities into new programmes
of pro-poor growth and redistribution towards poverty
eradication - That is how we plan to eradicate absolute
poverty within this generation - within the first decades
of 21st century - and we strongly feel that it is feasible
and affordable, infact, it is a moral imperative which we
will not miss.

3. We will carefully analyse the effects of globalisation,
calibrate its process by devising a timetable to suit
our national conditions and requirements so as not to
undermine but strengthen the national economy, the
indigenous industrial base and the financial and services
sectors.

4. We will earmark 60% of the Plan Funds for and effect public
investment in agriculture, rural development, irrigation
and by diverse incentives, including tax shelters, achieve a
quantum leap in agricultural production so that agriculture,
horticulture, forestry, food processing, fisheries and so on
become the vehicles for growth resulting in an enhancement
of the purchasing power of the people. Effective crop insurance schemes will be introduced. Special efforts will be made in Animal Husbandry, Dairying, particularly in respect of Cow and its progeny. This is one of the routes to generating employment, thus eradicating hunger and poverty in rural as well as urban areas. Subsidies of all kinds will be implemented in such a manner that maximize benefits to all section of the agricultural population. Development of medium and small scale irrigation projects shall receive priority attention; emphasis for investment will be in accordance with the potential for development.

5. We will adopt a National Water Policy which provides for effective and prompt settlement of disputes and their time-bound implementation. We will examine and take time-bound steps to link Ganga-Cauvery Rivers. Sethu Samudharam Canal Project will also be undertaken.

6. We will increase the national savings to 30% of the GDP in the next five years by appropriate incentives and through motivation; encourage Foreign Direct Investment in core areas so that it usefully supplements the national efforts and discourage FDI in non-priority areas.

7. We will institute a comprehensive study of the financial, technological and social security requirements of the self-employed and unincorporated sector; also constitute a Development Bank to promote this largest segment of the national economy which, too, has great employment and self-employment potential. Further, in addition to financial support institutions we will bring into being other institutional systems for providing services, technology and marketing facilities for artisans, the small-scale, village, khadi, powerloom, handloom, handicrafts and such other industries. This and the Agriculture sectors are an untapped source with unlimited scope for generation of employment.

8. We will give a major thrust to infrastructure development, particularly energy and power, by recommending public expenditure in the sector. Towards this we will access long-term funds in the national and international markets,
remove administrative bottlenecks, reverse the slowdown in this critical area of national economy thus giving a fresh impetus to growth. Private Sector participation will be encouraged.

9. We will undertake a review of all laws and regulations relating to industry so as to free it from bureaucratic control; institute a system of voluntary compliance with laws, including tax laws; ensure speedy redressal of industrial sickness arrange for meaningful interaction between industry and government; and revive the capital market as a viable and transparent mechanism for raising capital. We will also expedite comprehensive reform of the PSUs, including restructuring, rehabilitation and divestment.

Trade & Commerce

10. We will focus on specific products in specific growth areas for exports and announce specific packages for horticulture and forticulture EoUs. We intend to strongly support attempts to build a system of trade and economic cooperation through expanded global system of trade preferences (GSTP) among developing countries. 13. The Alliance will embark upon a strategic pro-poor policy in terms of which those living below the poverty line are not to be pitied but treated as a net resource replete with their own ideas and experience well in tune with local conditions. Every effort will be made to provide them work locally and ensure that schemes for their welfare are competently and honestly administered. They themselves will be treated as participants and facilitators in this noble venture. The services of NGOs, well versed in this field and, preferably originating locally, will also be enlisted wherever considered necessary.

Food Security and Price Stability

14. We will ensure food security for all, create a hunger-free India in the next five years, and reform and improve the Public Distribution System so as to serve the poorest of the poor in rural and urban areas. We will also ensure price stability by all appropriate means and necessary legislation.

Health and Drinking Water

Harnessing Yuva Shakti
19. The youth of our country constitute a majority of our population. They are the strength of the family, village, locality and the community, they are also the future of our nation. We will take all necessary steps to mobilise this most idealistic, inspired and energetic section of our society in the mission of nation-building. For this purpose, we shall build national consensus for the creation of a National Reconstruction Corps aimed at environmental protection ecological tasks, reclamation of waste land, including afforestation, and for spreading literacy. We will have a time bound programme for promotion of sports.

25. We are convinced that there is a clear case for devolution of more financial and administrative powers and functions to the States. We will take suitable steps to ensure harmonious Centre-State relations in the light of the recommendations of the Sarkaria Commission and also effect decentralisation right up to the grass roots level by activating and involving Panchayats and local bodies. We have effectively engaged with the international community and obtained a high degree of understanding.

elsewhere.

**Information Technology**

41. A new revolution is sweeping the globe — that of Information Technology. We believe that Information Technology is an important vehicle for future development. We are committed to ensuring that India is full and equal partner in its global progress; indeed, that India can be a software super power. We will, for that purpose, unveil a National Informatics Policy with short, medium and long-term perspective.

42. Finally, we are convinced that a nation of nearly 100 crore people representing a sixth of humanity cannot be governed on the arithmetic alone of majority and minority. Governance must become unifying, not divisive, in its practice. It is this mindless manner of the domination of the majority that has led to bitterness, hostility and confrontation – and has even made the opposition and ruling parties like permanent adversaries. This destructive trend of politics of negativism and political untouchability which has distorted our body politic in the last few decades calls for an immediate corrective. We will, therefore, strive to develop national consensus on all major issues confronting the nation by involving the opposition parties and all section of society in dialogue. We will also try for a consensual mode of governance as far as practicable.

This National Agenda is a sincere and solemn covenant aimed at changing the content and culture of governance of this great nation, freeing it of the triple curses of hunger (bhookh), fear (bhay) and corruption (bhrashtachar), and transforming it into a New India that is prosperous, strong, self-confident and at peace with itself and the world. We appeal for the cooperation of all parties and all sections of society in this great endeavour.
